SUMMARY

Software engineer with more than 2 years of dedicated experience. Experience at various levels of software engineering development, from firmware development to modern web applications and REST APIs. Currently working as a Full Stack Developer and Data Analyst. I have a strong foundation in Java, Python, JavaScript, TypeScript, and NodeJS, backed by strong hands-on experience, with additional experience in Angular and React. Familiar with cloud platforms like AWS as well as on-premises environments.

SKILLS

Intermediate: Git, Java, C, Python, JavaScript, TypeScript, React, Angular, NodeJS
Beginner: FastAPI, PHP

PROFESSIONAL EXPERIENCE

Full Stack Developer
Zansk Tech, Brasília, Brazil – Remote 07/2024 to 11/2025
